

Special Issue of Energy Strategy Reviews (Elsevier): *Energy Modelling Platform for Europe (EMP-E) 2018 – Modelling clean energy pathways*

This Special Issue collects contributions on themes to be discussed at the 2nd Energy Modelling Platform for Europe (EMP-E), which will be held on September 25th and 26th, 2018. It constitutes a peer-reviewed digest of models, approaches and policy insights for the assessment of Clean energy pathways for the EU energy system vis-à-vis the Energy Union strategy. It provides academics and decision makers with a deep review of cutting-edge EU-focused energy modelling research, to assist the EU energy system transition towards 2030, 2050 and beyond.

The content of the Special Issue will cover three key themes, in line with the three themes of the **EMP-E 2018**:

- Innovation in the energy transition;
- Integrated modelling of energy and resource efficiency;
- Modelling of aspects of energy consumption behaviour.

Contributions are welcome on either of the three themes, providing *methodological overviews* or *model applications*, with related policy-relevant insights.

Call for abstracts

We hereby open the call for abstracts for the Special Issue ***Energy Modelling Platform for Europe (EMP-E) 2018 – Modelling clean energy pathways***. Submissions of abstracts authored or co-authored by participants of the EMP-E 2018 Conference will be treated preferentially.

You may find the template for the abstracts and instructions for submissions [here](#).

The deadline for submission of abstracts is April 15th, 2018.

You will receive notification on the acceptance of the abstracts by April 30th, 2018.

Submission of full papers

Upon notification of acceptance, you may prepare the full manuscript. A description of the types of contributions accepted and instructions for the preparation of the manuscripts are available [here](#).

The deadline for the submission of full papers is September 12th, 2018.

Registration link and instructions for the submission of full papers will be sent to the authors together with the notification of acceptance of the abstracts.
